

Kerry Walshaw, Bsc Hons, Mcsp, Lcsp, Hpc Registered

As a Physiotherapy graduate with a specific interest in musculoskeletal conditions I am very pleased to be working alongside Catherine Turner and offering Sports Massage treatments on Tuesday and Friday in addition to treating physiotherapy clients.

Having had an interest in health and wellbeing from a young age in 2004 I decided to leave the office job behind and retrain as a massage therapist, I qualified in 2005 and have been practicing ever since.

Developing a real passion for this work, following my massage training I have continued my professional development with a diploma in Sports Therapy and a degree in Physiotherapy whilst maintaining my clinical practice. I continue to have a keen interest in the use of manual therapies and exercise to help people address problems resulting in pain or movement difficulties.

I now enjoy meeting and treating people from all walks of life from sports enthusiasts and dance professionals through to 97-year-old ladies and everyone in between. My treatments aim to combine the best in current evidence based physiotherapy and massage to provide you with a hands-on therapy tailored specifically to your needs.

When I am not working I enjoy an active outdoor lifestyle particularly running, hiking and cycling at home in the Yorkshire Dales.
